📍 San Miguel Manila Philippines

## SUMMARY

AI-Assisted Full Stack Developer building and shipping responsive, database-driven web applications with React, TypeScript, JavaScript, and Supabase. Fast at turning ideas into functional products through rapid prototyping, debugging, testing, and deployment.

## EXPERIENCE

### Dev Assistant | Opoli Technology Inc.

**Remote** | September 2022 - December 2025

- Conducted manual testing across web and mobile applications, identifying and documenting 50+ functional and usability issues across multiple application workflows.
- Assisted developers with coding, debugging, system updates, and bug fixes, contributing to the resolution and verification of 50+ application issues.
- Performed regression and functional testing across 10+ application features and scenarios, helping ensure fixes met expected functionality before release.

### Freelance Photo Editor

**Remote** | January 2023 - April 2024

- Managed multiple editing assignments and delivered 95%+ of completed projects within agreed deadlines.

### Internship | NCLEX Amplified Review Center

**Bacoor, Cavite Philippines** | June 2026 - August 2026

- Developed and deployed the official OJT & Internship website, building 10+ frontend features and integrating backend functionality for dynamic content and user workflows.
- Developed an interactive IT dashboard simulator, Daily Time Record system, certificate preview, training roadmap, FAQ, and internship application flow.
- Integrated and managed database-driven features, including internship data, DTR records, application information, and dynamic website content.

## PROJECTS

### NCLEX Amplified Review Center — OJT & Internship Platform | August 2026

- Developed a responsive internship platform featuring an IT dashboard simulator, Daily Time Record system, certificate preview, training roadmap, application workflows, and SEO/AEO enhancements.

**Tech Stack:** HTML, CSS, JavaScript, React, TypeScript, Tailwind CSS, Supabase, Git, Hostinger

### JPCS–SSCR Manila IT Department Official Page & Portal | July 2026

- Developed a full-stack academic and organizational portal with student/admin features, curriculum management, announcements, profiles, and role-based functionality.

**Tech Stack:** React, TypeScript, Tailwind CSS, Supabase, Vite, Git, Vercel

### ONE CAINTA—Community Web Platform | June 2026

- Developed a community-focused platform with responsive UI/UX, interactive features, optimized user flows, and SEO implementation.

**Tech Stack:** PHP, HTML, CSS, JavaScript, Git, PWA, Hostinger

### Cicerra Realty Services — Real Estate Platform | March 2026

- Developed a responsive real estate platform with property listings, dynamic content, and optimized navigation using React, TypeScript, Supabase, and Vite

**Tech Stack:** React, TypeScript, Tailwind CSS, Supabase, Vite, Git, Vercel

## EDUCATION

### San Sebastian College-Recoletos Manila

August 2023 - Present
